ABSTRACT

This comprehensive, annotated resource list is designed to assist in selecting resources authorized by the Alberta (Canada) Education Department for the elementary health classroom (Grades 1-6). Within each grade and topic, annotated entries for basic learning resources are listed, followed by support learning resources and authorized teaching resources. The program of studies for elementary health is organized around five themes that are taught at each grade level. These are Self-Awareness and Acceptance, Relating to Others, Life Careers, Body Knowledge and Care, and Human Sexuality (Grades 4-6). Materials are selected based on these criteria for acceptability: curriculum fit and instructional design; tolerance and understanding; developmental analysis; physical properties; cost; and Canadian content. The annotated list of resources includes descriptive abstracts for each item. Lists of Withdrawals of Authorized Resources, suppliers, regional resource and urban media centers, and other sources of information for health teachers are also included, with an index to titles and series. CONTENTS

Overview

This comprehensive, annotated resource list is designed to assist you in selecting health resources for your elementary classroom.

Organization

The authorized resources are listed under two main headings: Series and Individual Resources. Series and Individual Resources are listed alphabetically under each grade level.

Please Note: Resources to be withdrawn in August 1996 are not included in this list.

Additional Information

Withdrawals of Authorized Resources, a listing of suppliers, Regional Resource and Urban Media Centres, Other Sources of information for Health teachers, and a title/series index are included as additional information.

Updates

Updates to this list will be provided periodically. Information on new resource authorizations is included in Connection, published three times a year and distributed to all jurisdictions and schools by the Student Programs and Evaluation Division.

Pricing Information

Prices as of September 1995 are identified in each entry. Please contact the Learning Resources Distributing Centre (LRDC) or the supplier for current prices, including GST and shipping charges. Updated LRDC costs are also given in the current LRDC Buyers Guide. These prices are subject to change without notice.

Resource Authorization Categories

The following abbreviations have been used to denote Resource Authorization Categories:

AT - Authorized Teaching
B - Basic
S - Support

CONTENTS (Cont'd.)

Series

The health series comprise both teaching and student learning materials. In this annotated list, the series containing Basic resources are listed first. Other Health series follow alphabetically within each grade.

Individual Resources

These resources stand alone as teacher reference or student learning materials. The single component resources often have application across a range of grade levels and are listed alphabetically within each grade level.

AUTHORIZATION OF RESOURCES

Alberta Education selects, acquires, develops, produces, translates and authorizes the best possible instructional materials for the implementation of approved programs of study. Authorized resources meet Alberta Education's criteria for acceptability, including:

- criteria for curriculum fit and instructional design
- criteria for tolerance and understanding
- developmental analysis
- physical properties
- cost
- Canadian content.

Resource Authorization Categories

Authorized Teaching resources are those teaching resources produced externally to Alberta Education (for example, by publishers) that have been reviewed by Alberta Education, found to meet the criteria of review and to be the best available resources to support the implementation of programs of study and courses, and the attainment of the goals of education; they have been authorized by the Minister. Teaching resources produced as service documents by Alberta Education, such as teacher resource manuals (TRMs), diagnostic programs and monographs, are authorized by definition.

Basic learning resources are those student learning resources authorized by Alberta Education as the most appropriate for addressing the majority of learner expectations of the course(s), substantial components of the course(s), or the most appropriate for meeting general learner expectations across two or more grade levels, subject areas or programs as outlined in provincial programs of study. These may include any resource format, such as print, computer software, manipulatives, video.

Support learning resources are those student learning resources authorized by Alberta Education to assist in addressing some of the learner expectations of course(s) or components of course(s); or to assist in meeting the learner expectations across two or more grade levels, subject areas or programs, as outlined in the provincial programs of study.

Note:

The **School Act**, Statutes of Alberta 1988, Chapter S–3.1, as amended, indicates that a school board may develop or acquire instructional materials for use in programs or in schools. **Selection of instructional resources is not restricted to those authorized by Alberta Education.** [Refer to section 44(2)(a.1).]

GRADE 1 SERIES

WELL, WELL, WELL

This series is designed to teach children wholesome attitudes and behaviours in health and wellness. "Slim Goodbody" and his friends sing and instruct their way through the cognitive and affective messages. He points out that good health requires more than exercise and nutritious foods. Having a positive mental attitude, accepting one's own feelings, and practicing healthy habits all contribute to a healthy life. This series is authorized for use in Grades 1 to 3.

Wellness (BPN 261301) Wellness means more than the absence of sickness. Five areas of wellness are noted: physical, intellectual, emotional, social, and spiritual.

Go, Grow, Glow (BPN 261302) Food is the body's source of energy for activity and growth. Slim explains why it is important to chew food well, and discusses the digestion process.

Food Power (BPN 261303) Eating a variety of foods helps keep the body healthy. Slim explains why it is important to eat a good breakfast and identifies the Famous Food Group Plan as a way to choose a balanced meal. Some healthy snack foods are named.

Clean Power (BPN 261304) Cleanliness is a good health practice that helps guard against germs. Slim gives reasons for keeping the body clean and well groomed, and explains why it is important.

Exercise to Energize (BPN 261305) Regular exercise helps keep the body strong and healthy. Slim explains that exercising makes him feel good all over, makes his muscles stronger, and helps his heart and lungs. Activity exercises are demonstrated. The difference between good and bad posture is shown.

Relax (BPN 261306) Sleep and relaxation help keep the body fit and able to cope with stress. Slim explains that the way to relieve stress is to relax, to let the body slow down, and to unwind.

Feeling Good (BPN 261307) The powers of the mind to grow, think, dream and make decisions are described. Problem solving techniques are explored. Slim stresses that children should discuss difficulties with someone they trust.

Senses (BPN 261308) The senses are ways your body reports information about the world around you to your brain; including sight, sound, touch, taste, and smell. A blind person describes his world and tells how he depends on the senses of hearing and touch for information.

You Are Special (BPN 261309) Each individual is special because of his or her unique characteristics.

Safety Counts (BPN 261310) Indoor safety rules and habits can help prevent accidents and injuries. Slim discusses home safety, and demonstrates prevention techniques.

Play It Safe (BPN 261311) Outside safety rules can prevent accidents and injuries. Includes: bicycle safety, traffic safety, automobile safety, safety around strangers, water safety, safety around wild and stray animals, and safety while playing.

Emergencies (BPN 261312) During an emergency, it's important to know how to get the right help. Safety professionals discuss what to do in cause of fire, accidents, water emergencies, or situations involving criminals. An ambulance medic talks about the care given to injured people when an ambulance is called.

Healing Helpers (BPN 261313) Slim explains that the body is usually fit and strong, but that sometimes an injury or illness requires first aid or medicine. First aid for a simple scrape is described. Ways medicines help the body are identified, and safe ways to handle medicines are explained. It is noted that medicine is not always the best way to help the body feel better.

The Wellness Team (BPN 261314) Doctors help us keep our bodies healthy. Slim explains that people visit doctors when they are sick and when they need a wellness checkup. What to expect during a wellness checkup is explained. Ways to avoid catching germs or giving them to others are identified.

Sharing Your World (BPN 261315) We all share a responsibility to keep our community healthy. Community service roles including street cleaners, sanitation workers, park rangers, and fire fighters are shown to form a community wellness team. Slim explains that every community member has a responsibility to care for his or her environment.

Please note: The cost includes duplicating charges only. Handling charges and GST are extra.

Expiry date: August 31, 1996.

With as many ways of seeing as there are people, it's important to use the eyes and the heart to really see what is happening. LeVar's eyes are playing tricks on him and yours will too, as you try to figure out what is the real way to see things. Bill Cosby narrates the feature story about Arthur, a boy whose initial shyness about wearing glasses gets him into some awkward scrapes. The program deals with another kind of blindness - the kind that sees past the colour of a person's skin to the real person underneath.

Even though we can't touch or smell feelings, everybody has them. Happiness, loneliness, embarrassment, jealousy and excitement are just some of the feelings people experience, and that's what this video is all about. The sights and sounds of New York City's Central Park provide the backdrop for LeVar's probe into the world of feelings and how they affect us and those around us. Whether it be the up-and-down sensation of a carousel, or the tranquility of a rowboat, the variety of feelings we experience every day is endless. The highlighted book, *Koko's Kitten*, grants viewers the unusual privelege of meeting Koko, the gorilla, and her kitten, whose relationship typifies the idea that feelings do not only occur between humans, but between other animals as well.

A look at the specially prepared diets of the animals at the zoo shows the importance of a nutritionally balanced diet for people, too. Is there anything goats won't eat? LeVar journeys to the San Diego Zoo to find out. A young goat named Gregory has an abnormal penchant for "revolting" foods like eggs, vegetables, fruit and milk. His distraught parents must teach himt to enjoy such delicacies as cans, cardboard and wide, striped ties. LeVar samples haute cuisine à la goat when he happens upon Nanny and Billy's cafe, a small intimate eatery run by and for the four-legged. Back at the San Diego Zoo kitchen, we find out about diets of a variety of animals.

Walker (BPN 374201) This 13-minute video challenges racist attitudes toward Aboriginal people and shows how children from different backgrounds can form friendships. In the story, Walker is an Aboriginal foster child whose only playmate is his dog. Walker would like to make friends with Jamie, but Jamie is afraid of him and his dog.

Carol's Mirror (BPN 374202) This 14-minute video challenges the use of Eurocentric materials and shows how prejudice, racism and cultural expectations place limits on what people can do with their lives. In the story, Carol is interested in playing the lead in her school play. The only problem is that the school puts on Snow White every year, and Carol is not white.

Mela's Lunch (BPN 374203) This 14-minute video shows that differences in skin colour and country of origin need not be an obstacle to friendship or self-esteem. In the story, Mela, a recent immigrant from India, is trying to make friends and get used to her new surroundings. Her classmates make her feel unwelcome and out of place.

Hey, Kelly (BPN 374204) This 15-minute video focuses on the harmful and hurtful effects of racism and name calling. In the video, while playing a schoolyard game, Robert calls Kelly a name and a fight ensues. During detention, they find out they're not so different after all.

GRADE 2 SERIES

WELL, WELL, WELL

This series is designed to teach children wholesome attitudes and behaviours in health and wellness. "Slim Goodbody" and his friends sing and instruct their way through the cognitive and affective messages. He points out that good health requires more than exercise and nutritious foods. Having a positive mental attitude, accepting one's own feelings, and practicing healthy habits all contribute to a healthy life. This series is authorized for use in Grades 1 to 3.

Wellness (BPN 261301) Wellness means more than the absence of sickness. Five areas of wellness are noted: physical, intellectual, emotional, social, and spiritual.

Go, Grow, Glow (BPN 261302) Food is the body's source of energy for activity and growth. Slim explains why it is important to chew food well, and discusses the digestion process.

Food Power (BPN 261303) Eating a variety of foods helps keep the body healthy. Slim explains why it is important to eat a good breakfast and identifies the Famous Food Group Plan as a way to choose a balanced meal. Some healthy snack foods are named.

Clean Power (BPN 261304) Cleanliness is a good health practice that helps guard against germs. Slim gives reasons for keeping the body clean and well groomed, and explains why it is important.

Exercise to Energize (BPN 261305) Regular exercise helps keep the body strong and healthy. Slim explains that exercising makes him feel good all over, makes his muscles stronger, and helps his heart and lungs. Activity exercises are demonstrated. The difference between good and bad posture is shown.

Relax (BPN 261306) Sleep and relaxation help keep the body fit and able to cope with stress. Slim explains that the way to relieve stress is to relax, to let the body slow down, and to unwind.

Feeling Good (BPN 261307) The powers of the mind to grow, think, dream and make decisions are described. Problem solving techniques are explored. Slim stresses that children should discuss difficulties with someone they trust.

Senses (BPN 261308) The senses are ways your body reports information about the world around you to your brain; including sight, sound, touch, taste, and smell. A blind person describes his world and tells how he depends on the senses of hearing and touch for information.

You Are Special (BPN 261309) Each individual is special because of his or her unique characteristics.

Safety Counts (BPN 261310) Indoor safety rules and habits can help prevent accidents and injuries. Slim discusses home safety, and demonstrates prevention techniques.

Play It Safe (BPN 261311) Outside safety rules can prevent accidents and injuries. Includes: bicycle safety, traffic safety, automobile safety, safety around strangers, water safety, safety around wild and stray animals, and safety while playing.

Emergencies (BPN 261312) During an emergency, it's important to know how to get the right help. Safety professionals discuss what to do in cause of fire, accidents, water emergencies, or situations involving criminals. An ambulance medic talks about the care given to injured people when an ambulance is called.

Healing Helpers (BPN 261313) Slim explains that the body is usually fit and strong, but that sometimes an injury or illness requires first aid or medicine. First aid for a simple scrape is described. Ways medicines help the body are identified, and safe ways to handle medicines are explained. It is noted that medicine is not always the best way to help the body feel better.

The Wellness Team (BPN 261314) Doctors help us keep our bodies healthy. Slim explains that people visit doctors when they are sick and when they need a wellness checkup. What to expect during a wellness checkup is explained. Ways to avoid catching germs or giving them to others are identified.

Sharing Your World (BPN 261315) We all share a responsibility to keep our community healthy. Community service roles including street cleaners, sanitation workers, park rangers, and fire fighters are shown to form a community wellness team. Slim explains that every community member has a responsibility to care for his or her environment.

With as many ways of seeing as there are people, it's important to use the eyes and the heart to really see what is happening. LeVar's eyes are playing tricks on him and yours will too, as you try to figure out what is the real way to see things. Bill Cosby narrates the feature story about Arthur, a boy whose initial shyness about wearing glasses gets him into some awkward scrapes. The program deals with another kind of blindness - the kind that sees past the colour of a person's skin to the real person underneath.

Even though we can't touch or smell feelings, everybody has them. Happiness, loneliness, embarrassment, jealousy and excitement are just some of the feelings people experience, and that's what this video is all about. The sights and sounds of New York City's Central Park provide the backdrop for LeVar's probe into the world of feelings and how they affect us and those around us. Whether it be the up-and-down sensation of a carousel, or the tranquility of a rowboat, the variety of feelings we experience every day is endless. The highlighted book, *Koko's Kitten*, grants viewers the unusual privelege of meeting Koko, the gorilla, and her kitten, whose relationship typifies the idea that feelings do not only occur between humans, but between other animals as well.

A look at the specially prepared diets of the animals at the zoo shows the importance of a nutritionally balanced diet for people, too. Is there anything goats won't eat? LeVar journeys to the San Diego Zoo to find out. A young goat named Gregory has an abnormal penchant for "revolting" foods like eggs, vegetables, fruit and milk. His distraught parents must teach himt to enjoy such delicacies as cans, cardboard and wide, striped ties. LeVar samples haute cuisine à la goat when he happens upon Nanny and Billy's cafe, a small intimate eatery run by and for the four-legged. Back at the San Diego Zoo kitchen, we find out about diets of a variety of animals.

In the Beginning (BPN 367201) Students learn how a human baby develops and how to keep younger children safe.

Cells: Your Starting Place (BPN 367202) Students learn about parts and functions of the cell, genetic traits, and the importance of good health habits.

In a Heartbeat (BPN 367203) Discusses how the circulatory system works, protecting the heart by avoiding tobacco and the importance of exercise.

Muscles: Holding You Together (BPN 367204) Explains how muscles work, what they do in the body, and how to keep them healthy with proper eating and exercise.

Standing Tall (BPN 367205) Explains how bones are made, what they do in the body, how to keep bones healthy by eating well and how to prevent injury.

Fueling Up (BPN 367206) Teaches students how the body uses food and how to eat well for good nutrition.

From Fuel to Waste (BPN 367207) Describes how the organs of the excretory system work (digestive, urinary and skin) and explains ways to keep these organs healthy.

Fresh Air (BPN 367208) Explains how the body breathes, discusses asthma and other respiratory problems and how to protect the respiratory system by avoiding pollutants.

Control Centre (BPN 367209) Teaches how the nervous system works, how to protect the brain by avoiding drugs, and the importance of sleep.

Fighting Germs and Diseases (BPN 367210) Children learn how germs causes diseases, about health care workers and institutions, procedures that deal with disease, and immunization and disease prevention.

Sounds (BPN 367211) Describes the structure and function of the ear, shows health care workers, tests involving the ear, and how to clean and protect the ear.

Walker (BPN 374201) This 13-minute video challenges racist attitudes toward Aboriginal people and shows how children from different backgrounds can form friendships. In the story, Walker is an Aboriginal foster child whose only playmate is his dog. Walker would like to make friends with Jamie, but Jamie is afraid of him and his dog.

Carol's Mirror (BPN 374202) This 14-minute video challenges the use of Eurocentric materials and shows how prejudice, racism and cultural expectations place limits on what people can do with their lives. In the story, Carol is interested in playing the lead in her school play. The only problem is that the school puts on Snow White every year, and Carol is not white.

Mela's Lunch (BPN 374203) This 14-minute video shows that differences in skin colour and country of origin need not be an obstacle to friendship or self-esteem. In the story, Mela, a recent immigrant from India, is trying to make friends and get used to her new surroundings. Her classmates make her feel unwelcome and out of place.

Hey, Kelly (BPN 374204) This 15-minute video focuses on the harmful and hurtful effects of racism and name calling. In the video, while playing a schoolyard game, Robert calls Kelly a name and a fight ensues. During detention, they find out they're not so different after all.

Wellness (BPN 261301) Wellness means more than the absence of sickness. Five areas of wellness are noted: physical, intellectual, emotional, social, and spiritual.

Go, Grow, Glow (BPN 261302) Food is the body's source of energy for activity and growth. Slim explains why it is important to chew food well, and discusses the digestion process.

Food Power (BPN 261303) Eating a variety of foods helps keep the body healthy. Slim explains why it is important to eat a good breakfast and identifies the Famous Food Group Plan as a way to choose a balanced meal. Some healthy snack foods are named.

Clean Power (BPN 261304) Cleanliness is a good health practice that helps guard against germs. Slim gives reasons for keeping the body clean and well groomed, and explains why it is important.

Exercise to Energize (BPN 261305) Regular exercise helps keep the body strong and healthy. Slim explains that exercising makes him feel good all over, makes his muscles stronger, and helps his heart and lungs. Activity exercises are demonstrated. The difference between good and bad posture is shown.

Relax (BPN 261306) Sleep and relaxation help keep the body fit and able to cope with stress. Slim explains that the way to relieve stress is to relax, to let the body slow down, and to unwind.

Feeling Good (BPN 261307) The powers of the mind to grow, think, dream and make decisions are described. Problem solving techniques are explored. Slim stresses that children should discuss difficulties with someone they trust.

Senses (BPN 261308) The senses are ways your body reports information about the world around you to your brain; including sight, sound, touch, taste, and smell. A blind person describes his world and tells how he depends on the senses of hearing and touch for information.

You Are Special (BPN 261309) Each individual is special because of his or her unique characteristics.

Safety Counts (BPN 261310) Indoor safety rules and habits can help prevent accidents and injuries. Slim discusses home safety, and demonstrates prevention techniques.

Play It Safe (BPN 261311) Outside safety rules can prevent accidents and injuries. Includes: bicycle safety, traffic safety, automobile safety, safety around strangers, water safety, safety around wild and stray animals, and safety while playing.

Emergencies (BPN 261312) During an emergency, it's important to know how to get the right help. Safety professionals discuss what to do in cause of fire, accidents, water emergencies, or situations involving criminals. An ambulance medic talks about the care given to injured people when an ambulance is called.

Healing Helpers (BPN 261313) Slim explains that the body is usually fit and strong, but that sometimes an injury or illness requires first aid or medicine. First aid for a simple scrape is described. Ways medicines help the body are identified, and safe ways to handle medicines are explained. It is noted that medicine is not always the best way to help the body feel better.

The Wellness Team (BPN 261314) Doctors help us keep our bodies healthy. Slim explains that people visit doctors when they are sick and when they need a wellness checkup. What to expect during a wellness checkup is explained. Ways to avoid catching germs or giving them to others are identified.

Sharing Your World (BPN 261315) We all share a responsibility to keep our community healthy. Community service roles including street cleaners, sanitation workers, park rangers, and fire fighters are shown to form a community wellness team. Slim explains that every community member has a responsibility to care for his or her environment.

Even though we can't touch or smell feelings, everybody has them. Happiness, loneliness, embarrassment, jealousy and excitement are just some of the feelings people experience, and that's what this video is all about. The sights and sounds of New York City's Central Park provide the backdrop for LeVar's probe into the world of feelings and how they affect us and those around us. Whether it be the up-and-down sensation of a carousel, or the tranquility of a rowboat, the variety of feelings we experience every day is endless. The highlighted book, *Koko's Kitten,* grants viewers the unusual privelege of meeting Koko, the gorilla, and her kitten, whose relationship typifies the idea that feelings do not only occur between humans, but between other animals as well.

A look at the specially prepared diets of the animals at the zoo shows the importance of a nutritionally balanced diet for people, too. Is there anything goats won't eat? LeVar journeys to the San Diego Zoo to find out. A young goat named Gregory has an abnormal penchant for "revolting" foods like eggs, vegetables, fruit and milk. His distraught parents must teach himt to enjoy such delicacies as cans, cardboard and wide, striped ties. LeVar samples haute cuisine à la goat when he happens upon Nanny and Billy's cafe, a small intimate eatery run by and for the four-legged. Back at the San Diego Zoo kitchen, we find out about diets of a variety of animals.

In a gentle, reassuring style, students are given the message that they have the right to protect themselves against sexual advances by any adult. *Now I Can Tell You My Secret* is the story of a young boy who is keeping a secret from everyone — the secret that he was molested by a neighbour. By helping children distinguish between 'good touch' and 'bad touch', the film teaches children to say 'no' to situations that are uncomfortable to them. Children are urged to get to a safe place, then to tell an adult who will help them.

Skills for Growing focuses on helping children learn effective thinking and social skills that lead to positive behaviour. Key program goals include:

- Involving parents, school staff, and the community in supporting the healthy development and success of children.
- Providing opportunities for children to practice good citizenship through service to others.
- Encouraging a healthy, drug-free approach to life.
- Providing support for teachers and administrators through effective materials, high-quality training, and follow-up services.
- Celebrating diversity and encouraging respect for others.

The program focuses on five major themes. These are the same from one year to the next, with different lessons and activities appropriate for each grade. The kit includes K-1 Manual, 2-3 Manual, 4-5 Manual and School Community Manual.

Note: This kit cannot be purchased through the LRDC. It is available only to administrators and teachers who have been inserviced by Lions Quest Canada. Workshops cost $1220.00 for a principal and two teachers. Additional teachers can attend the workshop and receive materials for $470.00.

GRADE 4 SERIES

FEELING YES, FEELING NO

This video series is designed to teach children about personal safety, sexual assault prevention and decision-making. Three actors engage in role-playing before a student audience, who participate in questions asked by the actors. Children learn to identify and communicate "yes" and "no" feelings, to cope with encounters with strangers, and to deal with sexual assault situations, including the importance of seeking help. This series is authorized for use in Grades 4, 5 and 6.

Note: Preview is essential. The video (Part 2 and 3) presents specific terminology for private parts of the body and therefore may not be consistent with the approach used in some schools.

Part 1 (BPN 282501) Teaches children basic skills that build self-worth, self-confidence, and good judgement. Together, these provide the necessary foundation for self-protection. Teaching tools include a catchy theme song, positive and negative touching scenes presented by the actors, and lively discussion. Children are encouraged to appreciate, take pride in, and take responsibility for their own bodies, and to recognize and express related feelings.

Part 2 (BPN 282502) Reinforces the understanding of Yes and No feelings and teaches children how to recognize sexual assault by strangers. It emphasizes that not every stranger is dangerous. Memorable skits help children to identify dangerous situations. Children learn three simple questions they can ask themselves, to ensure their own safety, before they choose to say yes or no to a stranger.

Part 3 (BPN 282503) Teaches a more complex level of differentiation. Building on the earlier self-affirmation and discrimination skills, it introduces the subject of sexual assault by family members or trusted persons. It asks "What if you weren't with a stranger? What if you were with someone that you knew..?" The classroom actors role-play children's responses to several common assault situations, and the children offer self-help suggestions. Shows children how to protect their integrity in the face of such an event.

Walker (BPN 374201) This 13-minute video challenges racist attitudes toward Aboriginal people and shows how children from different backgrounds can form friendships. In the story, Walker is an Aboriginal foster child whose only playmate is his dog. Walker would like to make friends with Jamie, but Jamie is afraid of him and his dog.

Carol's Mirror (BPN 374202) This 14-minute video challenges the use of Eurocentric materials and shows how prejudice, racism and cultural expectations place limits on what people can do with their lives. In the story, Carol is interested in playing the lead in her school play. The only problem is that the school puts on Snow White every year, and Carol is not white.

Mela's Lunch (BPN 374203) This 14-minute video shows that differences in skin colour and country of origin need not be an obstacle to friendship or self-esteem. In the story, Mela, a recent immigrant from India, is trying to make friends and get used to her new surroundings. Her classmates make her feel unwelcome and out of place.

Hey, Kelly (BPN 374204) This 15-minute video focuses on the harmful and hurtful effects of racism and name calling. In the video, while playing a schoolyard game, Robert calls Kelly a name and a fight ensues. During detention, they find out they're not so different after all.

The Baseball Card (BPN 363301) A young boy discovers that stealing is no innocent act when he takes a friend's most valuable baseball card — and then lies about stealing it. It's only after he implicates one of his best friends in the theft that he begins to understand the consequences of his dishonesty. Fast action and contemporary dialogue keep viewers involved in this true-to-life story that provides valuable lessons on personal values, self-esteem, and friendship.

The Fight (BPN 363302) Demonstrates how easily a simple joke can get out of hand — and turn into a real fight. The issues of 'showing off', 'acting cool', and 'being tough', are addressed as two young boys play a practical joke on a classmate. Young viewers are offered ways to apologize to prevent a fight.
Note: Please preview. Some behaviour and language may cause concern in some communities.

The Lunch Group (BPN 363303) In this story a young girl meets a classmate from another country, and viewers are reminded how it feels to be an outsider.

The Mural (BPN 363304) The issues of accepting others, being fair, and recognizing the consequences of decisions are introduced in this dramatization. When her friends insist that Alan is "uncool", Trish is forced to struggle with her own mixed feelings about him and to explore the meaning of true friendship and the power of intimidation.

The Play (BPN 363305) In this story of a wheelchair-bound young girl, students learn about their attitudes to young people with disabilities, and how people with disabilities think about themselves.

The Game (BPN 363306) Tammy is the last student to be picked as a team member for a tag game. Embarassed about continually being selected last, she decides to try three different strategies to change her classmates' attitudes to her.

Even though we can't touch or smell feelings, everybody has them. Happiness, loneliness, embarrassment, jealousy and excitement are just some of the feelings people experience, and that's what this video is all about. The sights and sounds of New York City's Central Park provide the backdrop for LeVar's probe into the world of feelings and how they affect us and those around us. Whether it be the up-and-down sensation of a carousel, or the tranquility of a rowboat, the variety of feelings we experience every day is endless. The highlighted book, *Koko's Kitten*, grants viewers the unusual privelege of meeting Koko, the gorilla, and her kitten, whose relationship typifies the idea that feelings do not only occur between humans, but between other animals as well.

A look at the specially prepared diets of the animals at the zoo shows the importance of a nutritionally balanced diet for people, too. Is there anything goats won't eat? LeVar journeys to the San Diego Zoo to find out. A young goat named Gregory has an abnormal penchant for "revolting" foods like eggs, vegetables, fruit and milk. His distraught parents must teach himt to enjoy such delicacies as cans, cardboard and wide, striped ties. LeVar samples haute cuisine à la goat when he happens upon Nanny and Billy's cafe, a small intimate eatery run by and for the four-legged. Back at the San Diego Zoo kitchen, we find out about diets of a variety of animals.

FEELING YES, FEELING NO

This video series is designed to teach children about personal safety, sexual assault prevention and decision-making. Three actors engage in role-playing before a student audience, who participate in questions asked by the actors. Children learn to identify and communicate "yes" and "no" feelings, to cope with encounters with strangers, and to deal with sexual assault situations, including the importance of seeking help. This series is authorized for use in Grades 4, 5 and 6.

Note: Preview is essential. The video (Part 2 and 3) presents specific terminology for private parts of the body and therefore may not be consistent with the approach used in some schools.

Part 1 (BPN 282501) Teaches children basic skills that build self-worth, self-confidence, and good judgement. Together, these provide the necessary foundation for self-protection. Teaching tools include a catchy theme song, positive and negative touching scenes presented by the actors, and lively discussion. Children are encouraged to appreciate, take pride in, and take responsibility for their own bodies, and to recognize and express related feelings.

Part 2 (BPN 282502) Reinforces the understanding of Yes and No feelings and teaches children how to recognize sexual assault by strangers. It emphasizes that not every stranger is dangerous. Memorable skits help children to identify dangerous situations. Children learn three simple questions they can ask themselves, to ensure their own safety, before they choose to say yes or no to a stranger.

Part 3 (BPN 282503) Teaches a more complex level of differentiation. Building on the earlier self-affirmation and discrimination skills, it introduces the subject of sexual assault by family members or trusted persons. It asks "What if you weren't with a stranger? What if you were with someone that you knew..?" The classroom actors role-play children's responses to several common assault situations, and the children offer self-help suggestions. Shows children how to protect their integrity in the face of such an event.

Walker; Carol's Mirror; Mela's Lunch; Hey, Kelly Copyright **1992**	***Support***	**347200**	**$50.00**

Walker (BPN 374201) This 13-minute video challenges racist attitudes toward Aboriginal people and shows how children from different backgrounds can form friendships. In the story, Walker is an Aboriginal foster child whose only playmate is his dog. Walker would like to make friends with Jamie, but Jamie is afraid of him and his dog.

Carol's Mirror (BPN 374202) This 14-minute video challenges the use of Eurocentric materials and shows how prejudice, racism and cultural expectations place limits on what people can do with their lives. In the story, Carol is interested in playing the lead in her school play. The only problem is that the school puts on Snow White every year, and Carol is not white.

Mela's Lunch (BPN 374203) This 14-minute video shows that differences in skin colour and country of origin need not be an obstacle to friendship or self-esteem. In the story, Mela, a recent immigrant from India, is trying to make friends and get used to her new surroundings. Her classmates make her feel unwelcome and out of place.

Hey, Kelly (BPN 374204) This 15-minute video focuses on the harmful and hurtful effects of racism and name calling. In the video, while playing a schoolyard game, Robert calls Kelly a name and a fight ensues. During detention, they find out they're not so different after all.

The Baseball Card (BPN 363301) A young boy discovers that stealing is no innocent act when he takes a friend's most valuable baseball card — and then lies about stealing it. It's only after he implicates one of his best friends in the theft that he begins to understand the consequences of his dishonesty. Fast action and contemporary dialogue keep viewers involved in this true-to-life story that provides valuable lessons on personal values, self-esteem, and friendship.

The Fight (BPN 363302) Demonstrates how easily a simple joke can get out of hand — and turn into a real fight. The issues of 'showing off', 'acting cool', and 'being tough', are addressed as two young boys play a practical joke on a classmate. Young viewers are offered ways to apologize to prevent a fight.
Note: Please preview. Some behaviour and language may cause concern in some communities.

The Lunch Group (BPN 363303) In this story a young girl meets a classmate from another country, and viewers are reminded how it feels to be an outsider.

The Mural (BPN 363304) The issues of accepting others, being fair, and recognizing the consequences of decisions are introduced in this dramatization. When her friends insist that Alan is "uncool", Trish is forced to struggle with her own mixed feelings about him and to explore the meaning of true friendship and the power of intimidation.

The Play (BPN 363305) In this story of a wheelchair-bound young girl, students learn about their attitudes to young people with disabilities, and how people with disabilities think about themselves.

The Game (BPN 363306) Tammy is the last student to be picked as a team member for a tag game. Embarassed about continually being selected last, she decides to try three different strategies to change her classmates' attitudes to her.

Penalty Kick (BPN 334501) Features Eric, an eleven-year-old with hemophilia, who denies his disability and constantly takes risks to prove that he is like everyone else. Shows the pressure of having an alcoholic mother and a friend who experiments with alcohol to "relax." Questions the appeal of alcohol as a "way out."

I Think, I Am (BPN 334502) Follows Rod and Diane, ten-year-olds, on a typical day. Shows how Rod has positive thoughts, while Diane expresses negative thoughts about herself and acts accordingly. Uses a skit to illustrate the correct response to pressure to use alcohol and drugs.

Fitting In (BPN 334503) Tells the story of eleven-year-old Theresa. Shows the influence of her friend Angela who is always ready to take risks, whether on a skateboard or with marijuana. Concludes with Theresa's successful efforts to cope with pressure.

The Big Break (BPN 334504) Tells the story of Deborah, a model, who has been offered an excellent career opportunity - in a national advertising campaign for a wine cooler. Shows her dilemma when she learns that the campaign is targeted to young people who may be influenced to experiment with alcohol.

Thanks, But No Thanks (BPN 334505) Tells of a group of friends who meet at the mall and come under the influence of Michelle. She is sophisticated and not above shop-lifting, smoking, or drinking alcohol. Shows how the friends, one by one, find the courage to refuse to join in a drinking party.

Good Practice Today (BPN 334506) Tells of Jeff, an eleven-year-old, who is under pressure from several boys on the baseball team to dip snuff. Shows how Jeff's sister rehearses him in ways of saying 'no', and how Jeff gets the rest of the team to join him in saying 'no'.

Sister, Sister (BPN 334507) Tells the story of eleven-year-old Alicia, who has one prized possession - her bike. Shows her hard work at a variety of jobs to earn money to buy it. Points to her sister as a suspect when her bike has been stolen. Gives involvement with alcohol and marijuana as contributing factors to her sister's suspicious behaviour.

Decisions (BPN 334508) Presents the stresses on twelve-year-old James, due to his parents' recent divorce, his mother's long work hours, his father's departure from town, and his responsibilities for his younger brother. Disaster results when James' carelessness, due to an evening of drinking, results in a fire.

A Friend Indeed (BPN 334509) Tells the story of two friends, J.D. and Brad, and how their friendship is destroyed when J.D. calls an alcohol hotline and tells his mother, whose call to Brad's father exposes Brad's heavy drinking. Shows a final discussion between J.D., another friend, and a concerned teacher.

Like You, Dad (BPN 334510) Tells the story of siblings who attend a school health fair with their parents. Shows a conspiracy among the children and their mother to plan a vigorous camping trip which excludes their father who is in poor physical condition. Demonstrates the father's concern for his family and for his own health habits.

About Your Choice ... Our Chance (BPN 334511) Highlights the project's overall purpose, objectives, and components. Deals with the theme of participation — how all segments, institutions, and agencies in the community work together to support a variety of prevention activities. Shows how a community can work in and out of schools to assist students and families.

With as many ways of seeing as there are people, it's important to use the eyes and the heart to really see what is happening. LeVar's eyes are playing tricks on him and yours will too, as you try to figure out what is the real way to see things. Bill Cosby narrates the feature story about Arthur, a boy whose initial shyness about wearing glasses gets him into some awkward scrapes. The program deals with another kind of blindness - the kind that sees past the colour of a person's skin to the real person underneath.

Even though we can't touch or smell feelings, everybody has them. Happiness, loneliness, embarrassment, jealousy and excitement are just some of the feelings people experience, and that's what this video is all about. The sights and sounds of New York City's Central Park provide the backdrop for LeVar's probe into the world of feelings and how they affect us and those around us. Whether it be the up-and-down sensation of a carousel, or the tranquility of a rowboat, the variety of feelings we experience every day is endless. The highlighted book, *Koko's Kitten*, grants viewers the unusual privelege of meeting Koko, the gorilla, and her kitten, whose relationship typifies the idea that feelings do not only occur between humans, but between other animals as well.

Even when times are hard, it's possible to have lots of fun without spending a cent - by working together and using imagination. LeVar Burton visits a pet show and discovers all kinds of unusual pets, including pet rocks. But some children can't have pets, so LeVar introduces the touching story of a little boy who wants a pet at a time when his family is having financial trouble and must hold the line on expenses. LeVar explains that even in "tight times" there are all kinds of ways to have fun without spending a dime, all for the price of a little ingenuity and imagination. A spectacular musical dance number "Check It Out", takes LeVar for a spin around the FREE public library.

FEELING YES, FEELING NO

This video series is designed to teach children about personal safety, sexual assault prevention and decision-making. Three actors engage in role-playing before a student audience, who participate in questions asked by the actors. Children learn to identify and communicate "yes" and "no" feelings, to cope with encounters with strangers, and to deal with sexual assault situations, including the importance of seeking help. This series is authorized for use in Grades 4, 5 and 6.

Note: Preview is essential. The video (Part 2 and 3) presents specific terminology for private parts of the body and therefore may not be consistent with the approach used in some schools.

Part 1 (BPN 282501) Teaches children basic skills that build self-worth, self-confidence, and good judgement. Together, these provide the necessary foundation for self-protection. Teaching tools include a catchy theme song, positive and negative touching scenes presented by the actors, and lively discussion. Children are encouraged to appreciate, take pride in, and take responsibility for their own bodies, and to recognize and express related feelings.

Part 2 (BPN 282502) Reinforces the understanding of Yes and No feelings and teaches children how to recognize sexual assault by strangers. It emphasizes that not every stranger is dangerous. Memorable skits help children to identify dangerous situations. Children learn three simple questions they can ask themselves, to ensure their own safety, before they choose to say yes or no to a stranger.

Part 3 (BPN 282503) Teaches a more complex level of differentiation. Building on the earlier self-affirmation and discrimination skills, it introduces the subject of sexual assault by family members or trusted persons. It asks "What if you weren't with a stranger? What if you were with someone that you knew..?" The classroom actors role-play children's responses to several common assault situations, and the children offer self-help suggestions. Shows children how to protect their integrity in the face of such an event.

Walker (BPN 374201) This 13-minute video challenges racist attitudes toward Aboriginal people and shows how children from different backgrounds can form friendships. In the story, Walker is an Aboriginal foster child whose only playmate is his dog. Walker would like to make friends with Jamie, but Jamie is afraid of him and his dog.

Carol's Mirror (BPN 374202) This 14-minute video challenges the use of Eurocentric materials and shows how prejudice, racism and cultural expectations place limits on what people can do with their lives. In the story, Carol is interested in playing the lead in her school play. The only problem is that the school puts on Snow White every year, and Carol is not white.

Mela's Lunch (BPN 374203) This 14-minute video shows that differences in skin colour and country of origin need not be an obstacle to friendship or self-esteem. In the story, Mela, a recent immigrant from India, is trying to make friends and get used to her new surroundings. Her classmates make her feel unwelcome and out of place.

Hey, Kelly (BPN 374204) This 15-minute video focuses on the harmful and hurtful effects of racism and name calling. In the video, while playing a schoolyard game, Robert calls Kelly a name and a fight ensues. During detention, they find out they're not so different after all.

The Baseball Card (BPN 363301) A young boy discovers that stealing is no innocent act when he takes a friend's most valuable baseball card — and then lies about stealing it. It's only after he implicates one of his best friends in the theft that he begins to understand the consequences of his dishonesty. Fast action and contemporary dialogue keep viewers involved in this true-to-life story that provides valuable lessons on personal values, self-esteem, and friendship.

The Fight (BPN 363302) Demonstrates how easily a simple joke can get out of hand — and turn into a real fight. The issues of 'showing off', 'acting cool', and 'being tough', are addressed as two young boys play a practical joke on a classmate. Young viewers are offered ways to apologize to prevent a fight.
Note: Please preview. Some behaviour and language may cause concern in some communities.

The Lunch Group (BPN 363303) In this story a young girl meets a classmate from another country, and viewers are reminded how it feels to be an outsider.

The Mural (BPN 363304) The issues of accepting others, being fair, and recognizing the consequences of decisions are introduced in this dramatization. When her friends insist that Alan is "uncool", Trish is forced to struggle with her own mixed feelings about him and to explore the meaning of true friendship and the power of intimidation.

The Play (BPN 363305) In this story of a wheelchair-bound young girl, students learn about their attitudes to young people with disabilities, and how people with disabilities think about themselves.

The Game (BPN 363306) Tammy is the last student to be picked as a team member for a tag game. Embarassed about continually being selected last, she decides to try three different strategies to change her classmates' attitudes to her.

Penalty Kick (BPN 334501) Features Eric, an eleven-year-old with hemophilia, who denies his disability and constantly takes risks to prove that he is like everyone else. Shows the pressure of having an alcoholic mother and a friend who experiments with alcohol to "relax." Questions the appeal of alcohol as a "way out."

I Think, I Am (BPN 334502) Follows Rod and Diane, ten-year-olds, on a typical day. Shows how Rod has positive thoughts, while Diane expresses negative thoughts about herself and acts accordingly. Uses a skit to illustrate the correct response to pressure to use alcohol and drugs.

Fitting In (BPN 334503) Tells the story of eleven-year-old Theresa. Shows the influence of her friend Angela who is always ready to take risks, whether on a skateboard or with marijuana. Concludes with Theresa's successful efforts to cope with pressure.

The Big Break (BPN 334504) Tells the story of Deborah, a model, who has been offered an excellent career opportunity - in a national advertising campaign for a wine cooler. Shows her dilemma when she learns that the campaign is targeted to young people who may be influenced to experiment with alcohol.

Thanks, But No Thanks (BPN 334505) Tells of a group of friends who meet at the mall and come under the influence of Michelle. She is sophisticated and not above shop-lifting, smoking, or drinking alcohol. Shows how the friends, one by one, find the courage to refuse to join in a drinking party.

Good Practice Today (BPN 334506) Tells of Jeff, an eleven-year-old, who is under pressure from several boys on the baseball team to dip snuff. Shows how Jeff's sister rehearses him in ways of saying 'no', and how Jeff gets the rest of the team to join him in saying 'no'.

Sister, Sister (BPN 334507) Tells the story of eleven-year-old Alicia, who has one prized possession - her bike. Shows her hard work at a variety of jobs to earn money to buy it. Points to her sister as a suspect when her bike has been stolen. Gives involvement with alcohol and marijuana as contributing factors to her sister's suspicious behaviour.

Decisions (BPN 334508) Presents the stresses on twelve-year-old James, due to his parents' recent divorce, his mother's long work hours, his father's departure from town, and his responsibilities for his younger brother. Disaster results when James' carelessness, due to an evening of drinking, results in a fire.

A Friend Indeed (BPN 334509) Tells the story of two friends, J.D. and Brad, and how their friendship is destroyed when J.D. calls an alcohol hotline and tells his mother, whose call to Brad's father exposes Brad's heavy drinking. Shows a final discussion between J.D., another friend, and a concerned teacher.

Like You, Dad (BPN 334510) Tells the story of siblings who attend a school health fair with their parents. Shows a conspiracy among the children and their mother to plan a vigorous camping trip which excludes their father who is in poor physical condition. Demonstrates the father's concern for his family and for his own health habits.

About Your Choice ... Our Chance (BPN 334511) Highlights the project's overall purpose, objectives, and components. Deals with the theme of participation — how all segments, institutions, and agencies in the community work together to support a variety of prevention activities. Shows how a community can work in and out of schools to assist students and families.

Even though we can't touch or smell feelings, everybody has them. Happiness, loneliness, embarrassment, jealousy and excitement are just some of the feelings people experience, and that's what this video is all about. The sights and sounds of New York City's Central Park provide the backdrop for LeVar's probe into the world of feelings and how they affect us and those around us. Whether it be the up-and-down sensation of a carousel, or the tranquility of a rowboat, the variety of feelings we experience every day is endless. The highlighted book, *Koko's Kitten*, grants viewers the unusual privelege of meeting Koko, the gorilla, and her kitten, whose relationship typifies the idea that feelings do not only occur between humans, but between other animals as well.

A look at the specially prepared diets of the animals at the zoo shows the importance of a nutritionally balanced diet for people, too. Is there anything goats won't eat? LeVar journeys to the San Diego Zoo to find out. A young goat named Gregory has an abnormal penchant for "revolting" foods like eggs, vegetables, fruit and milk. His distraught parents must teach himt to enjoy such delicacies as cans, cardboard and wide, striped ties. LeVar samples haute cuisine à la goat when he happens upon Nanny and Billy's cafe, a small intimate eatery run by and for the four-legged. Back at the San Diego Zoo kitchen, we find out about diets of a variety of animals.

Skills for Growing focuses on helping children learn effective thinking and social skills that lead to positive behaviour. Key program goals include:

- Involving parents, school staff, and the community in supporting the healthy development and success of children.
- Providing opportunities for children to practice good citizenship through service to others.
- Encouraging a healthy, drug-free approach to life.
- Providing support for teachers and administrators through effective materials, high-quality training, and follow-up services.
- Celebrating diversity and encouraging respect for others.

The program focuses on five major themes. These are the same from one year to the next, with different lessons and activities appropriate for each grade. The kit includes K-1 Manual, 2-3 Manual, 4-5 Manual and School Community Manual.

Note: This kit cannot be purchased through the LRDC. It is available only to administrators and teachers who have been inserviced by Lions Quest Canada. Workshops cost $1220.00 for a principal and two teachers. Additional teachers can attend the workshop and receive materials for $470.00.

Even when times are hard, it's possible to have lots of fun without spending a cent - by working together and using imagination. LeVar Burton visits a pet show and discovers all kinds of unusual pets, including pet rocks. But some children can't have pets, so LeVar introduces the touching story of a little boy who wants a pet at a time when his family is having financial trouble and must hold the line on expenses. LeVar explains that even in "tight times" there are all kinds of ways to have fun without spending a dime, all for the price of a little ingenuity and imagination. A spectacular musical dance number "Check It Out", takes LeVar for a spin around the FREE public library.

The *Smoke Free Class of 2000* curriculum program is designed to provide teachers with information they may use to teach students about the dangers associated with smoking and alternatively, the benefits of choosing a healthy lifestyle by remaining smoke-free. Teaching kits for levels one through eight are available free of charge.

The Alberta Lung Association also promotes *Lungs In Action*, an activity based, fund raising program that promotes health and fitness while raising funds for your school and the *Smoke Free Class* curriculum program. Schools can choose to participate in October, January, March or May.

A teacher's resource catalogue, listing films, videos and printed information is also available. Films and videos may be borrowed for a two week period.

RAP: Roaring Adventures In Asthma Education for Children is a program designed to assist children with asthma ages 7 to 12 years to develop the knowledge, attitudes and skills required to live an active healthy life. Six, forty minute sessions feature an interactive puppet who shares asthma stories and experiences, and promote understanding of monitoring skills, trigger avoidance, proper use of medication, asthma signs and how to exercise.

The Alberta Asthma Centre also has the *Alberta Asthma Network Resource Catalogue* that lists a number of resources targeted for health professionals, teachers and people with asthma and their families.
